

Due Diligence: Proposal evaluation for technical, financial and corporate standards (2002 to present)

Client: Sustainable Development Technology Canada (SDTC)

Sustainable Development Technology Canada (SDTC) is a not-for-profit foundation that finances and supports the development and demonstration of clean technologies which provide solutions to issues of climate change, clean air, water quality and soil, and which deliver economic, environmental and health benefits to Canadians. To do so, the Foundation draws from an investment fund of \$550 million.

SGA plays an ongoing due diligence role as an evaluator of renewable energy funding requests (solar, biomass, liquid fuels, hydro, wind and fuel cells) for SDTC.
