

Wind Energy Systems Buyer's Guide (1997-98)

Client: Natural Resources Canada

SGA was the prime author of a wind system buyer's guide for stand-alone or hybrid systems up to 100 kW. From assessing potential to selecting a system, from analysing capability to estimating cost/benefits; this illustrated guide for the lay user was produced to increase market potential of wind in Canada.

Publication: Natural Resources Canada, Stand-Alone Wind Energy Systems – A Buyer's Guide, Natural Resources Canada, 2000. http://www.nrcan.gc.ca/es/erb/reed/wes/pdfbook_e.html
